## Counter Top Electric Fryers

6700

6701

6703-240

Small in size, big in operation! Nemco's counter top fryers just keep on producing. Compact models range in size from 10 to 15 lb. fat capacities. Convenient 10 lb. fryers are available in 120v for those special events that require a portable fryer. And our 15 lb. economy models 6703-240 and 6704-240 are just the right size for small operators who need maximum performance in minimal space. The 15 lb. models are designed with a 6000 watt element that takes only 10 minutes from initial heat up to reach a 375° F cooking temperature with quick recovery. The 6700 and 6701 can fry 10 lbs. of fries per hour; the 6703-240 and 6704-240 will fry 15 lbs. of fries per hour.

Special features include heavy duty baskets that are constructed of stainless steel with durable plastic coated handles for a cool touch. One bulk basket is standard on all models except the 6703-240 and 6704-240 which come with a set of twin baskets. Stainless steel batter plates are included to allow for frying without a basket. Control panel assembly is removable for ease of cleaning and convenient maintenance.

### Standard Features:

- Brushed stainless steel construction-outside
- Adjustable bulb and capillary thermostat
- Heavy duty fry baskets with cool touch handles
- Removable control panel assembly
- Equipped with adjustable feet
- 15 minute manual bell timer on 6701 and 6703-240
- High-limit safety thermostats
- Temperature range of 200-400° Fahrenheit
- Indicator lights meet U.S. and International codes
- Single phase
- Six foot cord and plug provided
- One year parts and labor warranty
