

"Exceeding your expectations"

***On the Go* Food Trouble-Free!**

Everything You Need to **Build Your Brand**

With a longstanding reputation in the foodservice industry for quality equipment and responsive service that'll never let you down, Nemco can promise you:

More Than 80 Equipment Choices

Choose from one of the largest product lines of hot dog grills, mini carts, food warmers and food merchandisers available. Or just let us know what you need and we'll build it.

Bend-Over-Backwards Support

Design customization. Drop shipments. Rapid response. You name it. Nemco just makes it easy to do business.

Custom Merchandising

Nemco beefs up your sell-through with custom point-of-purchase graphics that build your brand and increase impulse sales.

Trouble-Free Performance

Nemco equipment is built to run for decades, with virtually NO maintenance issues, delivering your highest return on investment.

inside:

Imagine all the ways your customers prefer their hot dogs. Nemco offers trouble-free equipment to satisfy every craving.....pg. 4

Add variety to your hot food sales with durable and reliable food warmers, great for chili and cheese dogs, or even ice cream syrups.....pg. 6

Ratchet up your impulse sales with custom soup stations that sell the perfect sandwich or other hot food side item.....pg. 6

Make more money with custom merchandisers that showcase your foods and keep them warm and fresh for hours.....pg. 7

Roller Grills & Accessories

Talk about dependable. For decades, all you'll ever hear out of a Nemco roller grill is sizzle.

- Motor components run long and quiet.
- Guards are made of tough heat- and impact-resistant polycarbonate.

NEW!

For busy, high-volume establishments, "auto-pilot" digital controls and dividers that keep food products aligned on the rollers reduce the need for operator supervision down to almost nothing.

Custom graphics and a sloped roller surface that offers better product visibility make this 27-count slanted grill a merchandising cash cow.

Customers can fix their hot dogs just the way they like 'em with this condiment bar.

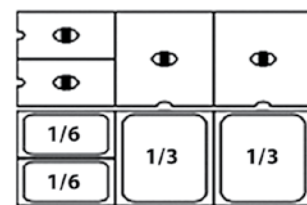

Mini Cart

Cash in on the fan-favorite hot dog with the fun and character of Nemco's mini cart merchandisers, designed to fit the space and décor of virtually any countertop or bar.

- Fully adjustable heating controls let you set and monitor temperatures with ease.
- Designs, inserts and accessories provide exceptional flexibility and let you adapt well to changing menu items.
- Standard models steam and hold as many hot dogs as a New York City street cart.

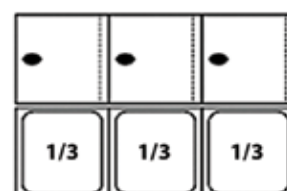

We will customize graphics to build your brand and boost sales! This countertop dog wagon presents a fun way to add some merchandising punch.

*Pan configuration-option 1**

*Pan configuration-option 2**

*Pan configuration-option 3**

A 36-count hot dog grill with self-serve guard, bun warmer and custom graphics combine to become hot dog sellin' central.

A 45-count self-serve roller grill is perfect for assorted roll-up products for breakfast, lunch and afternoon snacks.

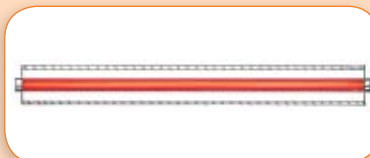

All Roll-A-Grills available with NEW GripsIt™ rollers!

Only from Nemco:

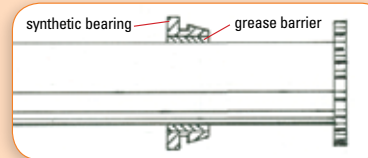

Sell more taquitos, pancake rollups and other specialty roller-grilled foods with Nemco's proprietary GripsIt™ roller coating—available on all Roll-A-Grill models. GripsIt combines a subtle friction characteristic with a smooth surface finish, optimizing cooking rotation without giving up the important food-safety cleanliness of conventional chrome rollers.

Rollers in standard chrome, nonstick or GripsIt coating are super-easy to clean.

Individual heating elements in each roller evenly distribute wattage for uniform cooking performance—that's better than any other grill on the market.

A synthetic bearing and a grease barrier double protect components from grease.

Put Your Name on America's Top Seller

Nemco serves up all sorts of hot dogs and other fan favorites!

Steamer Merchandiser

For some, you just can't beat the taste of a classic steamed ballpark frank. Well, for the perfectly convenient way to serve them up and make more money, you can't beat the home-run performance of Nemco's hot dog steamer merchandiser.

- Smart design uses the hot dog cooking steam to also keep buns on the upper rack moist and fresh.
- Features merchandising graphics, easy front access, and durable construction—all perfect for self-serve applications.
- A rear window makes it easy for staff to monitor the food from behind the counter, so they know when to reload.

Sell those classic ballpark-variety franks with a unique hot dog steamer merchandiser. Holds up to 150 hot dogs.

Make More Money by Offering More Variety

Expand your on the go menu further than ever!

Cookers & Warmers

Appeal to your customers' wide range of tastes with Nemco's attractive, versatile and reliably consistent food warmers.

- Heating components boast a fast start-up time and ensure uniform temperatures.
- Stainless steel construction simplifies cleaning and promises lasting performance.

Nemco's line of countertop warmers—holding chili, cheese and other fixin's—round out a complete hot dog station.

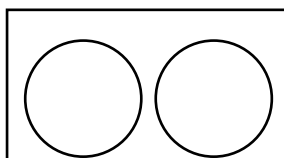

Soup Stations

Nemco's soup station merchandisers combine the dual attraction of eye-catching custom graphics and warm, irresistible aromas.

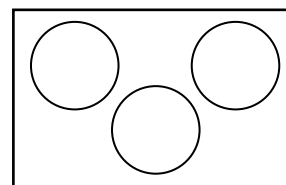

- Stainless steel construction upholds a handsome appearance and endures commercial use.
- Heating elements maintain an even holding temperature and prevent hot spots.
- Breath guards are available on select models.

Ratchet up impulse sales with this twin 7-qt. custom merchandiser that sells the perfect food side item—a hot cup of soup.

Twin 7-qt. well

Triple 4-qt. well

All Nemco cooker/warmers are listed NSF/ANSI Standard 4, making them certified "rethermalization equipment."

Food Merchandisers

Nemco arms you with sharp merchandising units that combine great display features with enduring holding capabilities to maximize the sight-and-aroma sales power of hot foods.

- Brightly lit interiors and open-view designs beautifully showcase foods.
- Unique heating element design and aluminum dissipater enhance heat transfer and eliminate cold spots.
- Thermostatic controls and other heating features let you manage freshness and overall food quality.
- Adjustable shelving, accessory racks and divider rods allow for versatility in food types and arrangements.
- Brushed stainless steel and tempered glass are easy to clean and require very little maintenance.

With an extremely small footprint, the Nemco heated snack merchandiser is poised for prime impulse-sale real estate on any counter.

Finally! An equipment solution that showcases hot foods while holding them at optimum temperatures for hours! Nemco's dual shelf merchandisers give you more menu options than ever.
